LEARNING ENGLISH AT A UNIVERSITY

In this chapter, you will learn about:

- Tips and strategies for learning English in a university setting
- Tips and strategies for improving listening and speaking skills in English
- How to identify syllables in English words

Marathon, by Gwyndafh, CCO

Learning a language is like running in a race. There is a lot of warm-up and a lot of practice before you can do well. However, if you try hard, you can win.

Discussion Questions

1. Read the sentences above. How is learning a language similar to running a race? What are some similarities between the two activities? What are some differences?
2. When a person runs a race, they need to warm up their muscles before they start. Is learning a new language similar? How can you warm up before speaking in a second language

Learning English at a University

Maybe you have studied at a university before, but learning a new language is a special goal that needs a special set of tools in order to succeed.

This chapter will discuss three sets of learning tips to help you get on a great start to learning English.

- General learning tips for university classes
- Tips for improving speaking and listening skills
- Tips for learning vocabulary in a second language

General Learning Tips for English Learners

Follow the learning tips below to improve your language learning.

Remember that learning must happen in the class with your teacher and classmates but also outside of class in your own time. Use English as much as possible.

In-class

Speak only English as much as possible

Sit by someone who doesn't speak your language in class

Ask a lot of questions when you don't understand

Before you translate a word in your dictionary to your language, try to understand the word from its context (the words around it)

When the teacher asks a question, raise your hand to answer. Don't be afraid to try.

Be brave and speak- don't be shy to try your English skills

Outside of class

Use conversation partners and tutors

Use resources available to you at your school

Visit your teacher's office hours for questions and practice

Go to parties and events on campus with English speakers

Go to community events where English is spoken

Listen to the news, radio, and TV in English

Review old vocabulary words and listen again to practice audio quizzes

Discussion Questions:

1. How many of the learning strategies listed do you already use?
2. What are 2 or 3 new strategies from the lists that you can try this week?
3. Do you use any other learning strategies that are different from the ones discussed here?

Tips for Improving Speaking and Listening Skills

Improving your speaking and listening skills in English requires a lot

of time and effort. However, with knowledge and use of some learning strategies, your English abilities will grow quickly.

Speaking and listening are skills that are closely connected. Improving one of them will help you improve the other. Remember this as you study English. Also, remember that improving your reading, grammar and writing skills in English will also help you improve your speaking and listening. Try to use and practice all part of the English language together.

Speaking

- Speak in English as often as possible, not only in class
- Find good English speakers to practice with
- Use grammar rules in your speaking
- Listen to pronunciation of words then repeat
- Practice using correct stress, intonation and rhythm of English
- Spend at least 30-60 minutes every day of the week speaking in English.

Listening

- Listen in English as often as possible, not only in class
- Listen to activities that you can read at the same time
- Listen to something 3 or 4 times
- Listen and write what you hear
- Listen actively: write down what you understand and what you don't
- Spend at least 30-60 minutes every day of the week listening to English

Listening Practice

Part 1:

After reading about learning strategies on the pages before, listen to the story below about Kaori, a Japanese student who has moved to the United States to study English.

As you listen, try to hear the answers to the questions below.

Take some notes by the young female walking questions. After you listen, discuss your answers to the questions with your partner.

Chapter 1 Activity 1

Discussion Questions:

1. Why does Kaori feel shy to speak in her English class?
2. Why isn't Kaori's English improving?
3. What can she do to change her feelings?
4. Do you understand how Kaori feels? Why or why not?

Part 2:

Now listen to another story about Kaori. Has she changed anything about her learning habits? Is she feeling more successful? Listen and answer the questions below.

Chapter 1 Activity 2

Discussion Questions:

1. What are 2 of the changes Kaori made at school?
2. Why does she feel better now?
3. What is the main idea of these two stories?

Learning Tips for Vocabulary Words

In order to successfully learn vocabulary, you will need to understand and use the new word a lot. Using the same strategy each time you learn a new word will help you remember new vocabulary. Follow the steps below while you are learning English and your vocabulary will increase quickly.

- Look at the spelling of the word and listen carefully to how it is pronounced.
- Using an English dictionary, find the meaning of

the new word and the part of speech. Is it a noun?
Is it a verb?

- Study how the word is used in context (inside of a sentence or paragraph).
- Quiz yourself on the word. Use flashcards often. Can you remember the word's meaning and how it is spelled? Can you easily use it in a sentence?
- Review and recycle the new word until you can easily remember it.
- Apply these steps to the chapter one vocabulary words on the next page.

Chapter 1 Vocabulary

important (adj.) information (n.) opinion (n.) discuss (v.)
response (n.)
apply (v.) knowledge (n.) strategy (n.) environment (n.)
success (n.)

Part 1:

Directions: Use your dictionary to find the meaning for the vocabulary words in the box. Then write the words from the box next to their definitions below.

- A plan of steps for achieving something
- To talk about an idea or subject with someone
- The people and things that are around you in life
- Something that is said or written as a reply
- To make a request for something such as a job
- Facts or details that tell you about something
- Your idea or belief about a subject

- What kind of environment is good for studying?
- What information did you learn in class yesterday?
- Do you like to discuss your opinions in class?
- What do you need to do to be a successful student?

Listening tip: Syllables

When you listen to a word in English, you can hear different parts of the word. These parts are called ‘syllables.’

For example:

the word paper has two parts: pa – per

the word beautiful has three parts: beau- ti- ful

the word love only has one part: love

Knowing how many syllables a word has will help you be able to pronounce the word correctly. It will also help you be able to spell the word.

How do you find the syllables in a word?

A dictionary will mark the syllables in a word like this: pa – per
Study the spelling of the word- Every syllable needs at least 1 vowel pa- per.

Put your hand under your chin and say the word. Each time your chin touches your hand counts as one syllable.

Listen carefully to each sound you can hear in the word.

Practice hearing syllables below with the chapter 1 vocabulary words:

Directions: Listen to the pronunciation of the vocabulary words. Write the vocabulary word then listen again and write the number of syllables that you hear in each word.

The first word has been done for you. Mark the syllables on each of the words.

Chapter 3 Activity 2

Grammar Point: Questions in English

There are two types of questions in English: Yes/ No questions and WH questions.

Yes/No questions

Begin with these verbs: Do/ Does — Is / Are

They are answered with a “Yes” or a “No”.

The be verb (is/are) is used to start questions when a *noun or adjective* follows the subject.

Question: Is Ms. Brown a teacher? (noun)

Answer: Yes, she is.

Question: Are the students happy? (adjective)

Answer: No, they aren't.

The verbs ‘do’ or ‘does’ are used to start questions when a *verb* follows the subject.

Question: Does she work here? (verb)

Answer: No, she doesn't.

Question: Do they speak English? (verb)

Answer: Yes, they do.

WH questions

Follow the same grammar rules, but they begin with the question words:

Who, What, When, Where, How, Why

WH questions have longer answers, not just “yes” or “no”

Where does she live?

She lives downtown.

When is your class?

I have class on Monday and Wednesday.

Practice:

Look at the answers below. Write a question that matches the answer. Think carefully about the grammar in the answer.

Question =?

Answer: No, they are from Canada.

Question =?

Answer: She works at a bank.

Question =?

Answer: My birthday is June 22nd.

Question =?

Answer: Yes, I'm a student here.

Discussion Activity

You and your best friend are taking a vacation for spring break. You are deciding between two kinds of vacations. First, ask your partner the WH questions below, so you understand what kind of vacation they like.

- What kind of weather do you like?
- Do you want to exercise or relax on vacation?
- Do long flights annoy you?
- What is your budget (how much money can you spend)?
- How long do you want to go for?

Now, study the information below about the two vacations. Together, with your partner, choose one vacation. You must agree with your partner on the same vacation.

Which vacation will you choose? Why?

Vacation #1: Ski Vacation in Canada

- 2-hour flight from Portland
- Cold, snowy weather
- Hotel includes hot tub and swimming pool

- 18-hour flight from Portland
- Hot, sunny weather
- Hotel is right on the beach
- Some English is spoken
- No meals included
- Opportunities to swim and dive
- \$3,500.00 for 5 days

Speaking Tip: Intonation

In the English language, the sound of a person's voice goes up

or down when they say the last word of a question or sentence. This difference in sound is called “intonation”.

Listen to the different sounds of the speaker’s voice here

- WH questions = falling intonation (voice goes down)
- Yes/No questions = rising intonation (up)
- Statements = falling intonation (down)
- Exclamations (excited speech!) = rising then falling intonation (up then down)

Practicing Intonation

Practice Activity 1

Directions: Listen to the questions and circle the type of intonation you hear.

Listening for Intonation

Adjectives for Describing Cities and Neighborhoods

Cities and towns come in all sizes. Some are big, and some are small. Each city or town has many neighborhoods, which are groups of houses or apartments where people know each other. The people in your neighborhood are called your neighbors.

There are many ways to describe cities and neighborhoods:

- **Size:** big, huge, large, tiny, small, medium
- **Location:** downtown, in a suburb (next to a city), in the city, out of the city, rural
- **Feel:** busy, loud, quiet, convenient, exciting, modern, traditional, green, crowded, safe, dangerous

Example:**What is your city like?**

My city is small and rural. It is not a big city. It is quiet.

What is your neighborhood like?

Practice: Ask your partner about their hometown. Try to find three similarities and three differences between you and your partner's hometowns.

Grammar Tip: Regular Past Tense Verb Endings

In English, all regular verbs end with 'ed'

Some verbs change their spelling, but others do not.

There are three different ways to pronounce past tense regular verb endings:

/id/ /t/

/d/

wanted

helped

called

needed

looked

cleaned

Follow these rules:

- If the base verb ends with the sound /t/ or /d/ = /id/

/id/

Paint = painted

- If the base verb ends with the sounds /p/, /f/, /x/, /sh/, /ch/ /k/
= /t/

/t/

Watch = watched

/t/

Wash = washed

- If the base verb ends with any other sound = /d/

/ d/

Play = played

The sounds of /t/ and /d/ are very similar, but the sound of /id/ is very different because it has an extra syllable added to the verb.

A native speaker of English will quickly notice if a verb that should have one syllable is pronounced with two.

For example:

/id/

Paint = 1 syllable Painted = 2 syllables

/id/

/t/

Help = 1 syllable Helped = 1 syllable **Not** Helped = 2 syllables

Listening Practice: Past Tense Verb Endings

SCRIPT AND ANSWER KEY

Chapter 1

Listening activity 1 script

Kaori is an English learner from Japan. She is in her first semester at a university in the U.S. state of Oregon. She is very excited to be learning English. In class, Kaori feels a little shy and mostly sits by another Japanese student. Together they translate words and talk in Japanese during the break. Sometimes her teacher calls her name to answer questions, but otherwise, Kaori doesn't raise her hand or speak much during class. She is afraid of making a mistake when she speaks. On the weekends, Kaori chats with her family in Japan and watches movies in Japanese on the computer. Kaori has been in the United States for two months now, but she doesn't feel like her speaking and listening skills are improving. She is disappointed.

Listening activity 2 script

Kaori, an English student from Japan, went to talk with her teacher about her listening and speaking skills. She told her teacher that she didn't feel like she was improving, and that she was having a hard time with her English studies. Her teacher gave her some ideas, and Kaori tried some of them that week. Instead of sitting by the other Japanese student in her class, Kaori sat by Mohammed, a student from Kuwait.

They spoke in English the whole class and agreed to be study partners outside of class as well. Kaori also started going to the conversation partners and practiced her English outside of class. In class, Kaori tried raising her hand when the teacher asked questions. Suddenly, Kaori felt like her English was really improving. The changes that she made helped her learn English more quickly and easily.

Activity 3 Answer Key

On the first day of English class, there is a lot of information that you will talk about and discuss with your teacher and classmates. It is very important that you pay attention, so you don't miss anything. Your teacher will ask you questions and will wait for your response. In American classrooms, the environment is interactive, which means the teacher and the students talk to each other a lot. Also, it is common for the students to talk in groups or pairs a lot and share ideas or opinions about something. On the first day, your teacher might share a new learning strategy or tip that will help increase your success in the class. Before too long, you will have a lot of knowledge in your brain, and you will improve your English in no time. You might even use your new English skills to apply for a student job or a place on a university team! Good luck!

It's important to know where food comes from. Do you know where yours comes from? In the United States, a lot of food goes through a long process before it arrives in the grocery store. Some products like milk are produced nationally, meaning in the United States. However, some products are international and are imported from other countries. Let's look at some specific examples. Most beef in the United States is produced nationally. For this reason, the quality of beef is good in the United States. It is fresh. However, some fruits, like mangos or coconuts are not grown in the U.S. They are shipped to the U.S. from other countries. Some people avoid eating foods that are not local. It is a good idea, but sometimes, this increases the price of some foods. Some shoppers allow themselves to buy international products once in awhile, but not often. Other shoppers don't care and buy whatever is the cheapest. In the U.S., you can find almost any product. Next time, think about where something came from when you buy it! Look for the sticker on the label.
